boAt owner raises ₹500 cr at \$1.4-billion valuation

FE BUREAU
Bengaluru, October 28

IMAGINE MARKETING, THE owner of consumer electronics brand boAt, has raised ₹500 crore (~\$60 million) from existing shareholders, an affiliate of Warburg Pincus, a leading global private equity fund and new investor Malabar Investments.

The Series C equity funding round valued the startup at \$1.4 billion. The company plans to use the fresh funding to expand its market in the smartwatch category, scale up its business across new geographies within and outside India, enhance its R&D capabilities, and support its local manufacturing plants.

boAt has become a household name for earphones, speakers, and headsets. Founded in 2016, it was expected to be valued at \$1.5-2 billion in its IPO, which has now been delayed by 12-18 months. The startup had filed draft papers with markets regulator Sebi for a ₹2,000-crore IPO in January.

Aman Gupta, co-founder &

boAt co-founders Aman Gupta and Sameer Mehta

chief marketing officer, boAt, claimed that the startup has a leadership position in the personal audio market in the country. He said boAt will now look to expand its smartwatches category as a second 'core' business. boAt claims to have closed FY22 with net revenue of approximately ₹3,000 crore.

"The new funding will allow us to invest significantly to disrupt the smart watches spaces with more innovative products. And we are thrilled that investors continue to have strong conviction and confidence in the boAt story," Gupta said.

boAt transformed the personal audio market through a portfolio of well-designed, feature-rich products at affordable prices backed by distinctive lifestyle brand positioning, digital marketing, and diversified omnichannel presence across online and offline markets. Partnerships with leading global companies like Qualcomm (also a shareholder in boAt), Dolby, Dirac, and others have helped the company deepen its market presence.

Sameer Mehta, the company's co-founder & chief product officer, said the smartwatch market today is in the

Dr Reddy's Q2 net profit beats estimates, up 12%

FE BUREAU
Chennai, October 28

BEATING THE STREET estimates, Hyderabad-headquartered pharma major Dr Reddy's Laboratories (DRL) on Friday reported a 12% increase in its consolidated net profit to ₹1,113 crore for the second quarter of FY23, from ₹992 crore in the corresponding quarter of last fiscal, driven by a favourable product mix, new launches and cost control.

The company's revenue went up 9% to ₹6,306 crore as against ₹5,763 crore while it reported an Ebitda of ₹1,932 crore. DRL's overall increase in revenue was supported by the revenue growth from North America.

DRL co-chairman & MD, GV Prasad said: "We are pleased with the strong financial performance in the current quarter, driven by the launch of Lenalidomide capsules in the US market. Our focus is to build a robust pipeline with products that improve affordability and access to patients globally. We continue to progress well in our productivity, innovation and sustainability agenda."

Revenues from global generics at ₹55.9 billion saw a growth of 18% and sequential quarter

GLOBAL PUSH

■ Revenues from global generics at ₹55.9 bn were up 18% and sequentially up 26%, driven by Lenalidomide launch in the US market

■ Revenues from North America were ₹28 billion, marking an year-on-year growth of 48%

growth of 26% driven by launch of the Lenalidomide capsules in the US market.

The company's revenues from North America were ₹28 billion, marking an year-on-year growth of 48% and sequential quarter growth of 57%, driven by launch and scale up of new products and favorable movement of forex rates, which was partly offset by price erosion in

early stages of evolution and most players don't have control over the end-to-end stack to offer compelling features to consumers. He said there is a significant opportunity to build the smartwatch category and launch more distinctive and technologically advanced products in the near future.

"Through boAt labs (the 120-person in-house R&D team) we are developing the next generation of products. These products will provide richer features and deeper insights to consumers on their health and wellness to enable them to lead more active and fulfilling lifestyles," Mehta said.

The company is also diversifying its manufacturing footprint via partnerships with leading electronics and manufacturing players in India, including Dixon, with whom it has created a manufacturing JV. A significant proportion of boAt's products are now being produced in India (one million units monthly).

The company is also putting plans in place to take the brand overseas.

some of its key molecules.

Europe revenues of the company stood at ₹4.2 billion, with year-on-year growth of 2% and sequential quarter growth of 1%, driven by volume traction in base business and new product launches across its markets. However, it was partially offset by price erosion in some molecules and the impact of adverse forex rates during the quarter.

Revenues from India were at ₹11.5 billion, logging an year-on-year growth of flat 1% impacted due to higher base of Q1 FY22, which included contribution from Covid product sales, said a DRL statement.

DRL notched up revenues of ₹5.9 billion from Russia, marking an year-on-year growth of 4% on account of new product launches, increase in sales prices and favourable movement of forex rates, partly offset by reduction in base volumes.

Revenues from other CIS countries and Romania were at ₹2.2 billion, a year-on-year decline of 1%.

Revenues from rest of world markets were at ₹4.1 billion, an year-on-year decline of 18% on account of reduction in the Covid-19 product sales in the current quarter versus last year and decrease in sales prices, partly offset by new launches.

Singapore Airlines adopts IBS system

SINGAPORE AIRLINES (SIA) has adopted a new Integrated Cargo Management System (ICMS), powered by IBS Software's iCargo cargo management platform. The ICMS

offers an integrated cargo application for business users. "The pandemic has greatly accelerated the need for digital transformation, especially given the important role that air freight

plays in critical supply chains. IBS Software's iCargo platform is a key element in SIA's digitalisation efforts..." said Chin Yau Seng, senior VP (Cargo) at Singapore Airlines. — FE BUREAU

MahaMetro's real estate plans get a boost

GEETA NAIR
Pune, October 28

THE MAHARASHTRA METRO Rail Corporation (MahaMetro) has been given the special planning authority status by the Maharashtra government, which would give it control over the development of land along the Metro Rail alignment in Pune and generate its own revenues.

MahaMetro has already got the SPA status for the Nagpur Metro project, where commercial development of land has commenced.

Real estate development accounts for a significant part of the non-fare box revenues projected for Pune Metro. This would improve the financial viability of the 33-km ₹11,420 crore Pune Metro project that is expected to start operations in December.

"MahaMetro can plan development of Metro-owned lands without approval of the Pune Municipal Corporation. We do not have to approach PMC for plan sanction, commencement and completion certificate," Hemant Sonawane, executive director, MahaMetro said.
